

**◀◀ 10/100/1000Mbps****8-PORT GIGABIT ETHERNET SWITCH ▶▶**

The Nexxt Solutions 8 port Gigabit switch is an unmanaged compact desktop unit, especially designed for SOHO, student dormitories, and small enterprise users.

- Eight (8) 10/100/1000Mbps UTP/STP Ethernet ports
- All ports support auto-negotiation functions to intelligently detect and determine the optimum speed and mode
- High performance connectivity and reliable data transfer, specially designed for small and medium-sized networks
- Full wire speed store-and-forward technology instantly eliminates bad packets

»» FEATURES

- Complies with IEEE802.3, IEEE802.3u, IEEE802.3ab, and IEEE802.3x Gigabit Ethernet standards
- 8 UTP/STP ports operating at 10/100/1000Mbps, supporting NWAY auto-negotiation, transmission rate auto-detection, and Universal Plug-and-Play (UPnP)
- Supports IEEE802.3x flow control for full-duplex, and backpressure flow control for half-duplex.
- Each UTP/STP port supports auto-MDI/MDIX selection for easy integration into a network
- Supports MAC address auto-learning and auto-aging functions
- 8000 MAC address table
- Easy-to-understand LEDs display real-time traffic status to monitor and diagnose the network
- Supports non-blocking line speed forwarding.
- Supports store-and-forward switching method.
- Compact size makes it perfect for desktops with limited space
- 110~220-volt power adapter
