

1U sliding adjustable 4 point shelf

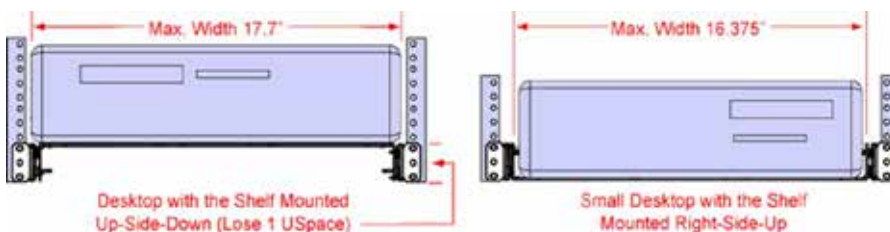

Nexxt Solutions offers a variety of shelves to meet all of your cabinet and rack mounting needs. Our 19-inch black steel rack mount shelves are compatible with most 19-inch EIA standard racks. These easy-to-install shelves fit all components from up to 18.85-inch wide. Heavy-duty 16-gauge steel construction and black powder coat finish for lasting strength and durability. Our rack shelves have a weight equipment capacity and will support a wide variety of electronic equipment. The slide rails extend fully to 28 inches on this standard shelf model. Cable management is a standard feature in this model, providing a professional method to professionally route and secure the cables. It includes a removable, front equipment stop bar, and an adjustable, rear equipment stop bar for securing equipment for transport or seismic applications. For indoor use only, in environmentally controlled areas, may not be used outdoors, in industrial or harsh environments or in plenum spaces. The sliding shelf is designed for non-rack-mountable equipment as servers, desktops, workstations and peripheral devices. The shelves can be attached to any rack hole (2 positions per U space). Fits square, round, threaded holes. Each unit is individually boxed.

AW220NXT25
