warranty**

Your home  
in **one app**

## Get instant alerts from your home even when you are away

Nexxt Solutions introduces its new **Smart Home Automation Series**. Designed to suit your mobile lifestyle while building a safe environment inside and out of your home, the brand seamlessly unifies into one user-friendly application a comprehensive line of fully integrated devices. From smart plugs, power strips, bulbs and cameras to security kits, you can now take control and run your home devices, on your own schedule even when you are not home.

Our **Smart sensor kit** is the easiest way to enhance your smart home security system. Featuring two contact sensors, this kit is designed to remotely monitor all the activity around your home by wirelessly communicating with your Nexxt hub (required). Instant notifications will be sent to your mobile device every time a door or window is opened or closed. Portable and easily removable, the sensors can also be attached to any other location that needs an extra layer of protection. They work perfectly on knife drawers, sheds, medicine cabinets, and more.

## Highlights

- Discreetly keep track of all the activity in your home or office
- Around-the-clock protection - get instant alerts when a door or window is opened or closed
- Quick and easy to setup
- Portable/removable and easily expandable
